**SOCKS**

# ABOUT

“Mondo-Calza” Sp. z o.o. Socks Manufactory functions on the market since 1996. We are a Polish firm with years of experience in knitting industry.

For all these years we have been making every effort to elaborate blameless opinion about the company and on its continuous development.

We handle designing and production of thermoactive sport socks signed **COMODO** brand.

For 20 years we have specialized in production, of which the main aim is to ensure proper temperature control and comfort to your feet. We approach this task with a sense of responsibility for health and comfort of people for whom activity is a lifestyle. That is why we address our products especially to ones seeking effective protection and comfort in all weather conditions, in different seasons and situations. The machine park allows us to mix, match and combine the most modern materials in order to ensure the best solutions and functionality. The manufacturing process is held entirely in Poland. In our production we only use raw materials that meet restrictive European standards in order to provide our customers with safety and quality.

Our products are sold under the brand **COMODO** to specialist shop networks in Poland and abroad. We also produce socks according to a customer's design and their requirements, or patterns designed by our designers for our contractors. We kindly invite you to become acquainted with our offer.

# NOTES

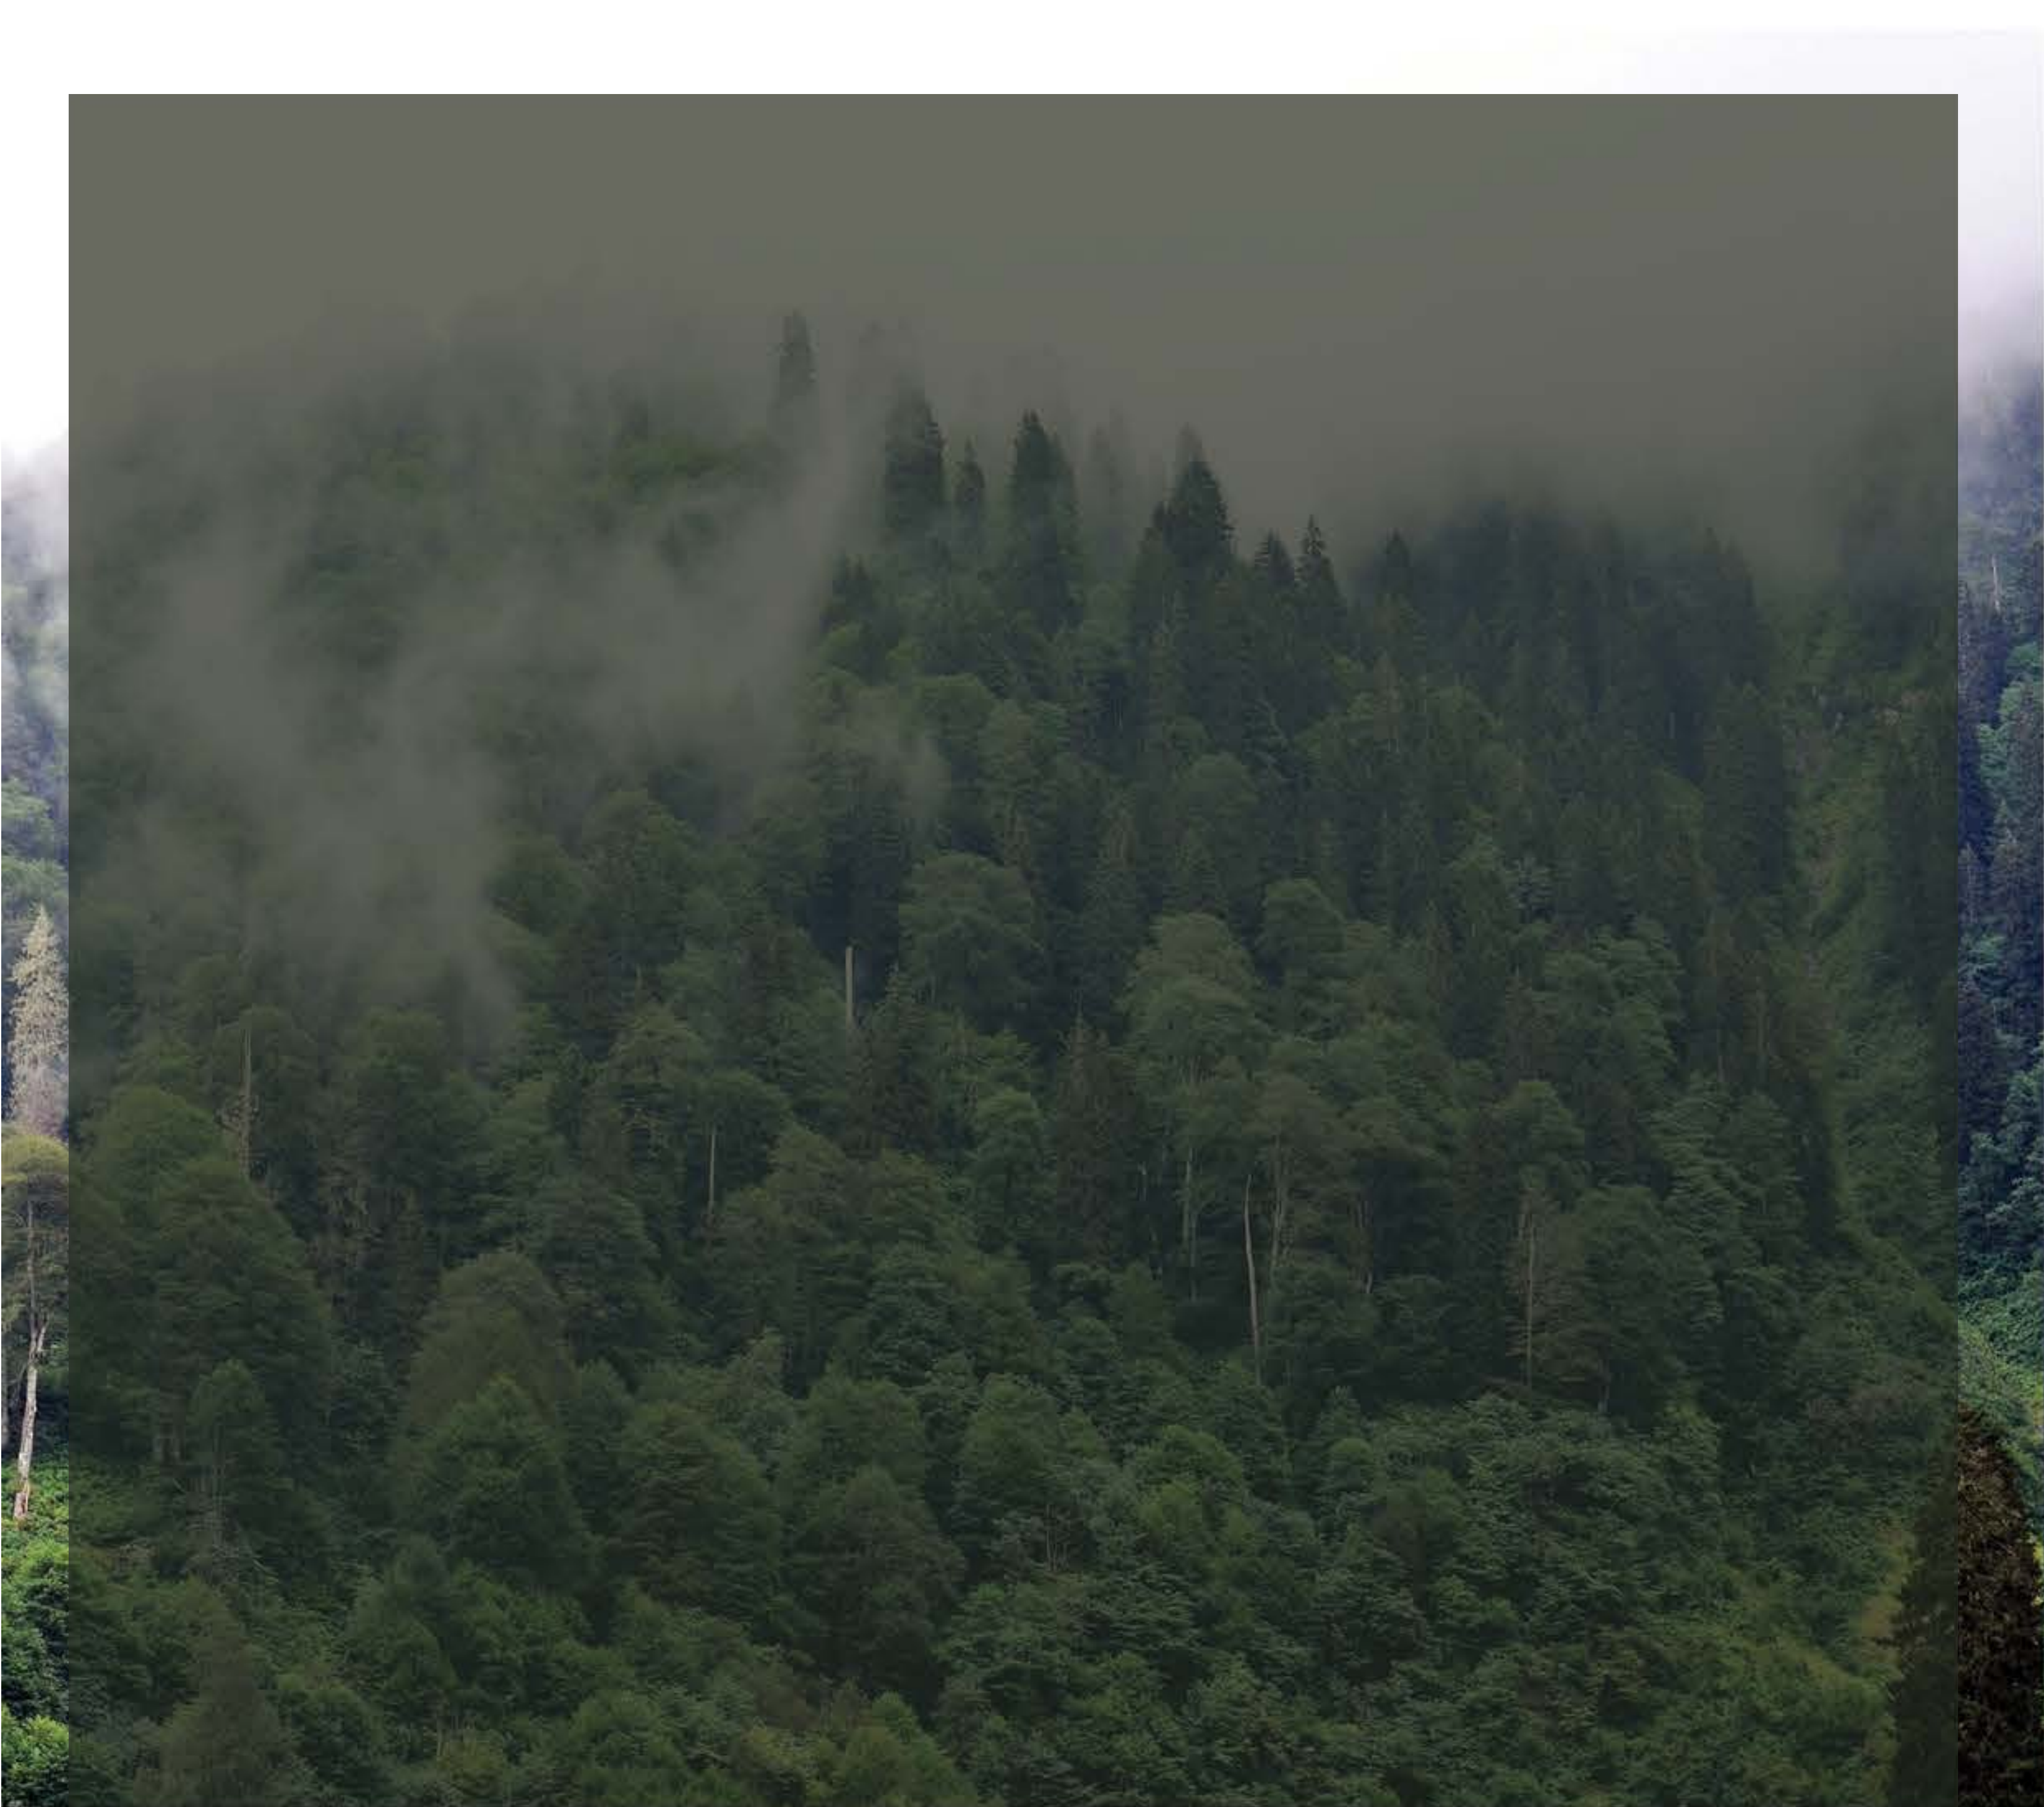

## NOTES

A background image of a forest stream with a tree trunk in the center, overlaid with horizontal ruling lines. The image is a grayscale photograph of a narrow stream flowing through a forest. A large, light-colored tree trunk stands prominently in the center of the stream, partially submerged. The water is dark and reflects the surrounding foliage. The banks are covered with dense, leafy plants and trees. Overlaid on this image are ten horizontal, light gray ruling lines that span the width of the page, providing a guide for writing.
